

Affinity™ Series Central Dehumidifiers

Every moment deserves York® comfort

Indoor air quality solutions for your comfort and health

OUTFIT YOUR HOME FOR TOTAL COMFORT WITH AFFINITY™ WHOLE HOME DEHUMIDIFICATION

"It's not the heat, it's the humidity"—that's what folks say to describe the discomfort of high humidity. Running the air conditioner more frequently doesn't always help lower indoor humidity. Often, it just runs up the electric bill. YORK® offers a smarter way to reduce humidity with the YORK® Affinity™ Series Central Dehumidifier for whole house dehumidification. It removes water vapor from your entire home, leaving you more comfortable while reducing air conditioning costs.

FEEL COMFORTABLE WITHOUT OVERCOOLING

You'll never again have to overcool your home to reduce indoor humidity. That's because the Affinity™ central dehumidifier is integrated into your home comfort system to reduce annual cooling costs up to 18% while increasing comfort. Dehumidification lets you raise your thermostat by several degrees, making you feel more comfortable while running your air conditioner less.

WHOLE HOME DEHUMIDIFICATION IS EASY TO HANDLE

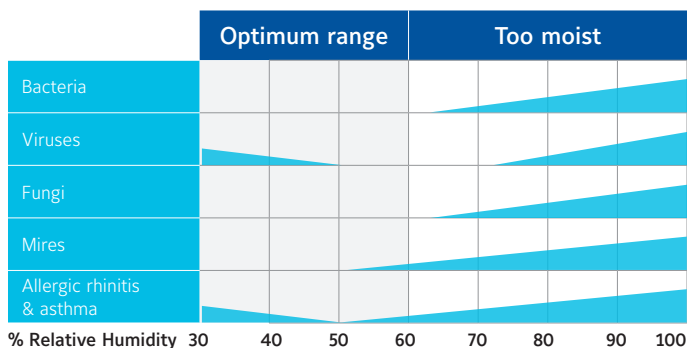

Portable dehumidifiers cannot handle the continual infiltration of water vapor throughout your home. A more effective solution is to have a central dehumidifier integrated into your central cooling system to efficiently dehumidify every room.

PROTECT YOUR HOME

High humidity affects wood flooring, cabinets and furniture with warping and structural damage. Bathroom and kitchen fixtures and basement walls that get wet with condensation are a breeding ground for mold. By removing excessive humidity, a central dehumidifier preserves your furnishings — and your peace of mind.

PROTECT YOUR HEALTH AGAINST MOLD, ALLERGENS

When indoor relative humidity is above 60%, allergens, dust mites and molds thrive — triggering asthma, allergies and respiratory infections. Our high capacity central dehumidifiers reduce humidity to protect against the spread of mold and other allergens.

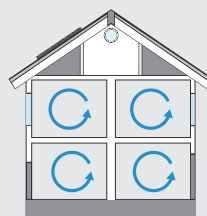

ENJOY THE PEACE OF MIND OF A FIVE-YEAR WARRANTY

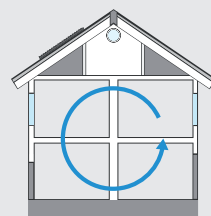

You can count on the performance and dependability of a YORK® Affinity™ central dehumidifier, because it's backed by a 5-year limited warranty.

YOU'LL LIKE THE EASY MAINTENANCE, TOO

A central dehumidifier is easy to maintain. Instead of emptying messy water trays, moisture is automatically drained away. Simply change the on-board air filter once every 12 months.

Portable units

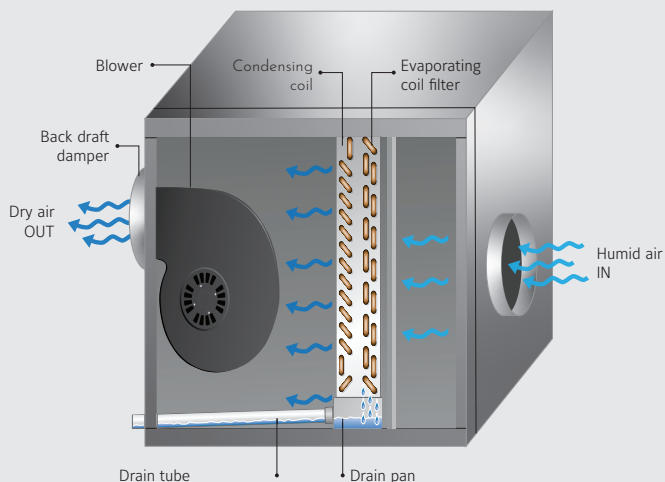

Premium whole house air cleaners

HOW WHOLE HOME DEHUMIDIFIERS WORK

Installed as part of your home's heating and cooling system, an Affinity™ central dehumidifier pulls air from every room through the return ducts, removing moisture and cycling dry air back throughout your home.

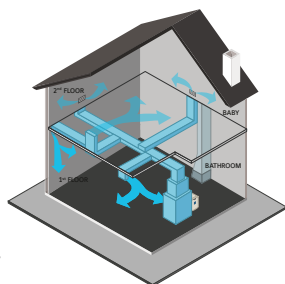

Get the protection you need:

- In spring and fall when humidity can rise but temperatures aren't hot enough to use air conditioning.
- When excess moisture is more than your air conditioner can handle alone.
- In higher-efficiency, tighter homes when air conditioning doesn't need to run as long, but trapped moisture continues to build.

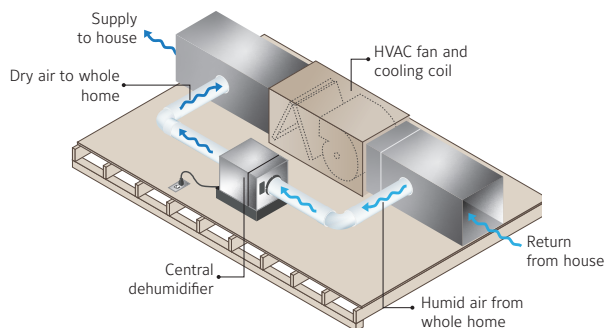

COASTAL RESIDENCES

For owners of coastal homes, apartments, townhomes and condos, it is especially important to provide year-round protection from excess humidity. Homes in these areas are subjected to extreme humidity conditions every day, all year long.

An Affinity™ central dehumidifier can help by:

- Preventing corrosion, rot and mold due to high humidity and moisture accumulation.
- Reducing electricity bills caused by running air conditioning excessively.
- Eliminating leaks and spillage from messy trays associated with portable dehumidifiers.

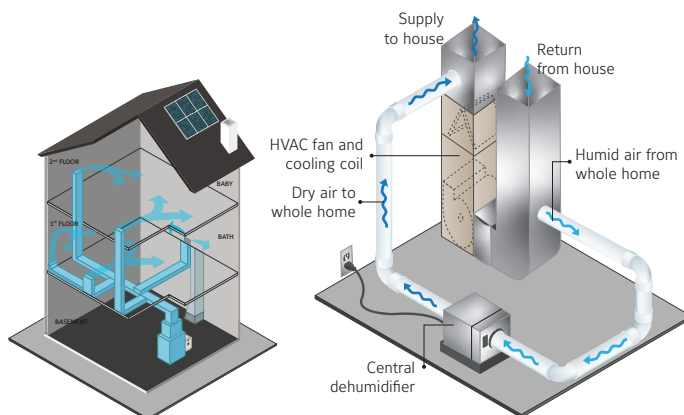

In the typical attic installation, the system is tucked out of sight along with the air handler. Installation may vary by model.

HOMES WITH SUBTERRANEAN LEVELS

Portable dehumidifiers don't perform well in cool below-grade environments. And for large basements, two or more units are needed to handle the entire area.

An Affinity™ central dehumidifier can help by:

- Removing excess humidity in below-grade rooms and basements to prevent musty smells and dampness.
- Preventing damage to furnishings and stored items.
- Eliminating noisy units that run constantly (one Affinity™ central dehumidifier can remove up to 130 pints every day).
- Providing automatic water drainage without involving messy storage buckets and basement drains.

In the typical installation in basements or below-grade, the system is tucked out of sight along with the air handler. Installation may vary by model.

SIZING GUIDELINES FOR AFFINITY™ SERIES CENTRAL DEHUMIDIFIERS

Model	Water Removal Capacity	Size (W x H x L)	Weight	Warranty
S1-CVD070T01	70 pints/day	12.5" x 14.5" x 25"	67 lbs	5 year parts
S1-CVD095T01	95 pints/day	12.5" x 14.5" x 27.5"	75 lbs	5 year parts
S1-CVD130T01	130 pints/day	19.5" x 18.75" x 30"	113 lbs	5 year parts

YORK® HEATING & AIR CONDITIONING: A NAME YOU'RE COMFORTABLE WITH

For over 100 years, the YORK® brand has stood for world-renowned quality and comfort. That's why generations of families have depended on rugged, reliable YORK® HVAC products for comfort – whether in the great outdoors or indoors. Today, you can rely on your YORK® Dealer for affordable, environmentally friendly home comfort products. With innovative YORK® heating and cooling technology, you get more performance in less space while using less energy, fewer raw materials and less refrigerant.

Learn how YORK® HVAC products can set the performance standard for your home, season after season.
